

Product Strategy

DESCRIPTION

Turns the vision into explicit strategic choices, bets, capabilities and trade-offs.

DECISION IT SERVES

Where will we play, how will we win, and what will we deliberately not do?

1 Vision

The future state this strategy serves. Carry it over from the product vision.

2 Strategic choices

The explicit choices being made, and what each one rules out.

Choice	What it rules out	Rationale / evidence	Owner

3 Where to play

Markets, segments and channels in and out of scope.

WHERE WE PLAY

WHERE WE DO NOT

4 How to win

The basis of advantage, and the evidence it holds.

5 Strategic bets

Each bet, the assumption it rests on, and how it will be tested.

Bet	Assumption to test	How we test it	Owner
-----	--------------------	----------------	-------

6 Capabilities

What we must be able to do, and the gap to close.

Capability	Current state	Gap / action	Owner
------------	---------------	--------------	-------

7 Trade-offs

What we are deliberately giving up, and the cost of doing so.

8 Outcomes

How we will know the strategy is working.

Outcome / measure	Baseline	Target / by when	Owner / source
