

Business Case

DESCRIPTION

The investment argument with its assumptions visible and its ranges stated.

DECISION IT SERVES

Fund, pilot, validate, defer or decline.

1 Executive summary

The ask, the return and the recommendation, in one paragraph a sponsor can act on without reading further.

2 Background

Why this is being proposed now, and what evidence triggered it.

3 Scope

What this investment covers, and what it deliberately does not.

IN SCOPE

OUT OF SCOPE

4 Proposed solution

What is being built or bought, in plain terms.

5 Other options considered

What else was on the table, and why it lost to the proposed solution.

Option	Pros	Cons	Why not chosen

6 Timeframe

The phases this runs through, and who owns each one.

Phase	Start	End	Owner

7 Benefits

What changes, for whom, stated as a measurable driver rather than a promise.

Benefit	Type	Baseline	Target

8 Cost of work

The one-off investment required to deliver this.

Cost item	One-off amount	Notes
Total		

9 Recurring costs

What this costs to run every year once it is live.

Cost item	Annual amount	Notes
Total		

10 Time and cost savings

The offsetting value, stated with its basis so it can be checked later.

Saving	Annual value	Basis

11 Risks

What could make this go wrong, and who is watching for it.

Risk	Likelihood	Mitigation	Owner

12 Next steps

What happens immediately after this is approved.

Action	Owner	Date

13 Appendix

Supporting detail, sources and calculations that back the numbers above.

DECISION / NEXT STEP

Decision: _____ Owner: _____

Rationale / evidence: _____

Next action / date: _____
